

## **Journal of Agricultural Policy and Food Security (APFS)**

### **Call for papers**

It is great pleasure to announce about the launch of a new journal providing a scholarly forum for the discussion of the most crucial issues of agricultural policy and food security. Journal of Agricultural Policy and Food Security (APFS) offers a mixture of refereed papers taking a systematic view of the sustainable crop production systems, sociology and economics of crop production, agricultural development and access to food & nutrition. The journal will cover the principles and practice of crop production systems and food security per se, taking an overview of the subject and analyzing it with a broad perspective over its many component disciplines. To address the challenge of global food security, the journal will probe the constraints - physical, biological, socio-economic and political - which not only limit crop and food production but also the ability of people to access a healthy diet. APFS is crafted to become a world-class journal, publishing multi-disciplinary and geographically differentiated relationships between production systems, policy arenas and their inter-relationships.

*APFS* aims to publish rigorous and original research on areas of agricultural policy and food security, which may include, but not confined to:

- Crop production systems
- Food quality and safety
- Access to food and distribution
- Fruits and vegetable production
- GM foods
- Biotechnology and breeding for food security
- Value chain
- Biofortification
- Organic farming
- Sustainable agriculture
- Governance and institutions
- Livestock and animal nutrition
- Marketing and Value chain
- Agro-industry and agri-business
- Land Policy
- Land degradation and desertification
- Land reforms
- Soil fertility
- Plant protection
- Climate change and environment
- Agricultural finance and credit policy
- Macroeconomic policy
- Trade policy
- International trade in food items
- Political economy of agricultural policy
- Water management policy
- Water quality

- Gender and agriculture development
- Policies for agricultural technology
- Agricultural research policy
- Agricultural prices policy
- Agricultural rural economy

## **FORMAT**

Except in the case of reviews, contributions will be no longer than the equivalent of ten (10) printed journal pages inclusive of tables, illustrations and references. Short communications will follow the requirements for original research papers but the text will not exceed 1000 words. A typical page of text in the journal will contain ~520 words. Manuscripts should be typed on A4 size, double spaced, with 3 cm margin on each side and paginated. All contributions will be subject to editorial revision. A full-length paper must be organized as:

### **TITLE PAGE CONTAINING FOLLOWING FIELDS**

- a. **Manuscript type:** Original Research Article/Review article/shot communication
- b. **Title:** Complete title of your manuscript
- c. **Running Title:** Should not be more than 60 characters with spaces
- d. **Authors:** Full names of the contributors along with their affiliation (please do not use abbreviations)
- e. **For correspondence:** e-mail address of the corresponding author MUST be given
- f. **Novelty statement (4-5 points)** highlighting originality/scientific merit of the work reported in the manuscript

**Abstract:** (no more than 250 words emphasizing objectives, important results, conclusions and practical implications)

**Keywords:** (four to six)

**Introduction** (must highlight background of the problem in the light of recent literature and specific objectives/research questions)

**Materials and Methods** (should be to the point and explicit)

**Results:** Should be clear and precise

**Discussion** (should be logical and reflecting the originality of the contribution and findings discussed in the light of most recent literature)

**Conclusion** (should be brief and reflect the essence of the work)

**Acknowledgement** (should be as brief as possible)

## **References**

Style of references for text quotation is: a) with date in parentheses, e.g. as demonstrated by Kim (2014); or (b) with names and dates in parentheses, e.g. according to recent findings (Kim, 2014); (c) Aslam and Lee (2015); (d) as described previously (Khan and Javed, 2013); (e) Farooq et al. (2011) or (I) as described previously (Muhammad et al., 2014). If more than two authors the first author should be given followed by et al., where lists of references are cited. In the text two or more references should be placed in chronological order, e.g., (Rasool, 2013; Khan, 2002). If more than one reference by the same author(s) published in the same year are cited, they should be distinguished from each other by placing a, b, etc. after the year, References at the end of paper should be alphabetically arranged. Names of all authors should be included. References should be set as follows:

## **JOURNAL REFERENCE**

Lee, D.J, 2014. Screening rice genotypes for salt resistance. *J. of Plants Biology*, 15(4): 1–8

Khan, A.S. and A. Rizwan, 2000. Combining ability analyses of wheat. *Int. J. Agriculture and Biology*, 2(3): 77–79

Akhtar, J., M.A. Qureshi, A. Naseem, M.S. Iqbal and M.A. Masood, 2000. Differential response of rice cultivars against salinity. *J. of Plants Biology* 4(2): 10–13

Kene, D.R. 2006. Falling wheat production need for micro-nutrients to correct this situation. *Field Crops Research Journal* 48(1): 21–27

## **Book reference**

Taiz, L. and E. Zeiger, 2006. *Plant Physiology*, 4th edition, Sinauer Associates, Sunderland, Massachusetts, USA

## **Multi-authored edited book reference**

Gorham J. and R.G. Wyn Jones, 1993. Utilization of Triticeae for improving salt tolerance in wheat. In: Towards the: Rationale Use of High Salinity Tolerant Plants. pp: 27–33. H. Leith and A.A. Massoum (eds.). Kluwer Academic Publications, The Netherlands.

## **Webpage**

Pandey, R.K., D. Kumar and K.M. Jadhav, 2011. Assessment of determinants for reducing HCN content in Sorghum used for ruminant in Gujarat, India. Available at: <http://www.lrrd.org/lrrd23/3/pand23066.htm> (Accessed: 23 March 2015)

Tables and Illustration (to be arranged at the end): Tables should be typed on separate sheets and numbered. Lower-case superscript letters should indicate footnotes to tables. All tables and figures must be cited in the text. Illustrations (referred as photographs, line graphs or bar charts) should be either in black and white or patterned (use of colored line graphs or bar charts is discouraged). Scan of photographs may be supplied using Tiff or JPG file separately or inserted in the text. Legends for illustrations should be numbered consecutively to correspond with the figures.

### **How to Submit Manuscript**

Currently authors are requested to submit their manuscripts electronically at [mashfaq@uaf.edu.pk](mailto:mashfaq@uaf.edu.pk), [khalid450@uaf.edu.pk](mailto:khalid450@uaf.edu.pk) and [apfs.uaf@gmail.com](mailto:apfs.uaf@gmail.com).

Kind regards,

s/d: Prof. Dr. Muhammad Ashfaq
