FUNDING OPPORTUNITIES FOR RESEARCH GRANTS

USAID funded U.S.-Pakistan Center for Advanced Studies in Agriculture & Food Security (USPCAS-AFS) is a collaborative project between the University of Agriculture, Faisalabad and the University of California at Davis (USA). The partner universities have joined together to call for research proposals for solution-driven research in eleven priority research and policy topics. These topics address critical challenges for agriculture and food security in Pakistan and include the following:

1. Vaccine development for Foot and Mouth Disease.
2. Seed productivity and technology for fodders, vegetables, chickpea, and soybeans.
3. Development of stress-tolerant germ-plasm for wheat and cotton.
4. Heat tolerant livestock/poultry genetics.
5. Pest management strategies for fruit flies, ticks, and pink boll worm.
6. Control of tree dieback.
7. Ensuring and improving the health and nutritional value of food.
8. Mechanization of farm operations (land development to post-harvest) including technological adaptation/reverse-engineering to the Pakistan farm setting.
9. Increasing viability of small milk and horticulture producers through marketing cooperative.
10. Use of Information and Communication Technology (ICT) in the transfer of agricultural and food systems knowledge and technology.
11. Policy papers are sought on a number of important areas including: irrigation water pricing; marketing margins; livestock nutrition; regulatory regime in agriculture (seed certification and registration, biosafety, SPS compliance); and blending of flour for improving nutrition.

Applications on other subjects will not be accepted.
Two Grant Writing Workshops will be held in the first week of April.
Deadline for submission of concept notes is 25 April, 2016.
For further details, including topics, guidelines for writing proposals and participation in the grant writing workshop, please visit the website <http://uspcasafs.uaf.edu.pk/Grants.aspx>.
