PAKISTAN PROGRAM FOR COLLABORATIVE RESEARCH (PPCR)

Excellence in Higher Education can only be achieved and sustained, if supported by progressive research endeavors. Traditionally, the developing countries have lagged behind in this sector, especially in the high tech areas, not only because of shortage of resources to conduct research, but due to the dearth of potential researchers who can set innovative research themes and deduce productive conclusions according to established international standards. A research Program "Pakistan Program for Collaborative Research (PPCR)" has been initiated which provides one-window facility through which the University Faculty in Pakistan can collaborative with academia, from throughout the world. It will strengthen the indigenous capacity in all the disciplines of academic research and also raise the over all standard of the teaching & research. Through PPCR, innovative support and encouragement of collaborative research at Pakistani Universities/Institutions and those abroad, would benefit not only the faculty but also the students at Pakistani Universities. For more details Please send your mails to hawan@hec.gov.pk or contact on Phone: (051) 90401921 Fax: (051) 90401902.
