#### **56<sup>th</sup> ALUMNI MEET AND OTHER FESTIVITIES (27-31 MARCH, 2009)**

The University of Agriculture, Faisalabad is organizing the 56th Alumni Meet, Agri. Exhibition, Flower Show, Kisan Mela, Horse and Cattle Show, Students Co-curricular activities, and other festivity together as a University Festival 2009. The objective of this festivity is to provide an environment of interactive learning, knowledge and experience sharing, questioning, discussions, feedback and social interaction among alumni, teachers, researchers, farmers, industrialists, entrepreneurs, students and civil society. The regular congregation of the alumni is an old tradition of the university, which provides an opportunity to the senior graduates of the university to come back to their Alma matter, and critically examine the progress in research and development. In the Alumni Meet, in addition to academic interaction and recreational activities an international seminar "The Changing Face of Agriculture" will be organized where ideas will be shared and discussed to make strategies for the improvement of agriculture and livestock sectors in the country. Farmers are the ultimate beneficiaries of the agricultural knowledge and technologies developed in agricultural universities and research institutes. Therefore, a deep-seated and sustainable system for interaction between the farmers and researchers is of prime importance in conducting problem oriented basic and applied research on one hand and boosting up agricultural production on the other. Moreover, some forward-looking farmers make advances in the crop and animal husbandry. Such advancements remain contained to their personal use and do not go to masses for overall increase in the agricultural production of the country. It is planned to invite framers in the festival to promote an interaction between farmers, teachers, students and researchers to share and streamline the informal research endeavors of progressive farmers. Exhibition of the research outputs of the university at the occasion will provide better chances of their dissemination and possible improvements. The horse and cattle show is an important traditional event for healthy competition and enjoyment. It has been made a part of the festival, which would include competition for milk production, tent pegging and horse dances. Co-Curricular activities of the students are crucial for their personality development and mental grooming. Active participation of the students in these activities furnishes them with confidence, inculcate creative thoughts and enable them to face the challenges of practical life. Such activities act as waves of freshness for their mental nourishment to exert more in their studies. The students of the university will be involved in the festivity through sports, drama, skits etc. Thus the festival is almost a week long mega event in the university with the following schedule of events:
